

Powerful and Versatile Ultrasound System

Superior Features, Flexible and Versatile

- High Resolution Imaging
- Advanced Imaging Technologies
- Fully-Featured System - Ideal for Shared Services
- Streamlined Workflow

Quantum
Technology

Powerful and Versatile Ultrasound System

The SonixMDP is a high-performance, multi-purpose ultrasound system incorporating Quantum Plus Technology for excellent image quality.

High Resolution Imaging with Advanced Technologies

- Fast and accurate performance
- High Resolution 19" LED monitor
- Sensitive color Doppler with excellent spatial resolution and sensitivity
- Motion Compensated Angular Compound Imaging (MACI) ensures high quality real-time images

Fully-Featured System for Shared Services

- Full range of features including PW, CW and Color Doppler, Spatial Compounding, EPI, Pulse Inversion Harmonics, Trapezoid, Panoramic Imaging, 3D and 4D
- Comprehensive cardiac calculations and report packages

Flexible and Easy to Use

- Designed with dedicated keys for the application at hand – Cardiac, OB/GYN, Vascular, Musculoskeletal and more
- Double full swivel wheels for easy maneuverability
- Adjustable monitor and console for greater operator comfort
- Easy-to-clean color touch screen with a wide viewing angle for controls at your fingertips

Innovative Needle Guidance

- SonixGPS helps improve the speed and accuracy of difficult procedures
- SonixShine needle enhancement technology illuminates needle in-plane with the touch of a button

Optimized Workflow and Patient Management

- SonixHub - streamlines your credentialing, billing and quality assurance processes
- Barcode reader and wireless access simplifies patient information into and out of the system
- SonixCam - HD recording of complete procedures for educational needs

Sensitive color flow and pulsed wave Doppler

3D/4D Imaging

SonixGPS - a Breakthrough in Needle Guidance

Excellent Image Quality and Advanced Features for a Variety of Exams

3D 30 week fetal face

19 week fetal brain anatomy

22 week fetal head thorax

Common carotid artery with pulsed wave Doppler and trace

Portal vein

M-mode of mitral valve

Biparietal diameter, head circumference measurements of 26 week fetus

Fetal profile 34 weeks

Fetal femur

Portal vein pulsed wave and color Doppler

Power Doppler right kidney

Thyroid right transverse plane

Innovative Solutions for Life

Analogic Corporation creates innovative technology to improve the health and ensure the safety of people around the world. We are committed to providing ultrasound solutions, under the Ultrasonix brand name, that advance medicine and save lives.
